PROFESSIONAL EXPERIENCE

Software Engineer & Scrum Master
Mercatus Technologies Inc

Feb. 2022 – Present
Toronto, ON

- Led a cross-functional Scrum team of 9 members through scrum ceremonies resulting in a >90% completion of scheduled tickets within a sprint
- Developed a responsive, accessible, and intuitive e-commerce platform and websites using HTML5, CSS3, TypeScript, PHP, NextJS and JavaScript frameworks such as React and AngularJS for major grocery retailers
- Held an important role in creating a shop filter interface adopted by all of our retailers leading to a 26% increase in client interactions
- Occasionally acted as the primary application support response for merchants, dealing with clients directly with over 300 tickets closed
- Adhered strictly to WCAG 2.0 Standards addressing over 80 accessibility issues found on production sites

Accounting Administrator
Carson Auto Group

Jan. 2018 – Nov. 2021
Victoria, BC

- Reviewed and reconciled banking, warranty, and inventory accounts using CDK software, and claim programs, netting the company over $20,000 monthly
- Increased task efficiency by 76% through automation, created a standardized method for future employees, and spearheaded several successful projects to increase productivity
- Worked with a team to maintain a large database of records using a variety of accounting software and CLIs to track deals, payments, and inventory
